WEBERT[®]
Made in Italy with Passion

Italian Concept, Design and Manufacture

La nostra storia ruota intorno alla passione. Innanzi tutto quella che in Webert mettiamo nel nostro lavoro di squadra, che consiste nel creare linee che esprimono eleganza, dando spazio ad un design giovane, moderno ed emergente. Ma la passione per ciò che realizziamo ci porta anche a nutrire un assoluto rispetto per chi sceglie i nostri prodotti. Ai quali il nostro cliente chiede raffinatezza, affidabilità, funzionalità e il giusto rapporto tra ciò che acquista e ciò che spende. È dal 1975 che questi valori ci guidano. Hanno fatto di Webert un'azienda che, nell'arredobagno italiano, significa innovazione, qualità e rigore. Sono le caratteristiche che ritrovate anche oggi nella nuova gamma di prodotti presentata in queste pagine.

The history of Webert revolves around passion. Primarily the passion that we at Webert put into our teamwork, which involves creating lines that embody elegance while providing scope for young, modern and emerging designs. From this passion for our creations comes total respect for the people who choose our products. They demand refinement, reliability, functionality and value for money. These have been our guiding values since 1975. These values have transformed Webert into a hallmark for innovation, quality and precision in the world of Italian bathroom fittings. And you can still find all these admirable qualities today in our new range of products presented here.

Acciaio 316L Sano, duraturo, atossico

L'acciaio inossidabile non contiene tracce di piombo e non rilascia nichel, materiali che possono essere causa di allergie e arrecare danni alla salute. L'acciaio inossidabile viene trattato solo meccanicamente, lucidato o spazzolato per conferire la sua naturale lucentezza e bellezza, non subisce nessun processo galvanico di cromatura o artificiale, procedimenti chimici che possono essere causa di inquinamento.

L'acciaio inossidabile garantisce una eccezionale durata per la sua resistenza sia meccanica che chimica. In ambienti ad elevata aggressività l'acciaio mantiene inalterate le proprie caratteristiche di inossidabilità garantendo durata e funzionalità.

L'acciaio AISI 316L risulta il migliore in assoluto per inossidabilità, stabilità della struttura e durata, possedendo le migliori caratteristiche per la gestione dell'acqua potabile.

Stainless steel 316L Healthy, long-lasting, atoxic

Stainless steel does not contain traces of lead and does not release any nickel, both substances that can cause allergies and harm to your health. Stainless steel is only treated mechanically, polished or brushed to give it its natural light and beauty, it does not undergo any galvanizing chromium process, chemical processes that can be the cause of pollution.

Stainless steel guarantees an exceptional life span, because of its solidity, both mechanical and chemical. The characteristics of stainless steel, and AISI 316L in particular, remain the same also in hard environments guaranteeing long-lasting performance over the years.

AISI 316L Steel has the best characteristics in terms of stain resistance, durability and solidity, and guarantee drinking water.

Come una vera e propria scultura,

Il rubinetto One-A è così lavorato al suo interno da evocare il dinamismo e le geometrie di una texture 3D. Dirompente nel design, evoluto nella tecnologia, conferisce all'ambiente cucina un tocco di innovativa unicità.

Like a real sculpture,

the One-A faucet is so worked inside that it evokes the dynamism and geometries of a 3D texture. Amazing design, evolved in technology, gives the kitchen space a touch of innovative uniqueness.
